Attention Is Called to the Growing era Germa.

(Copyright, 180, by the Assaciated Press.)

Berlin, April 8.—The Samoan question continues to hold the attention of Roseburg, Orc., April 8.—News reachthe public, the newspapers being full of dispatches and comment on the sub-The emperor has devoted much time to the matter, and has conferred several times on the subject with the minister of foreign affairs, Baron von

Halow.

It is interesting to note that German distrisst and dissatisfaction at the latest events are almost entirely almed at Great Britain, whose attitude is described, even in official circles, as being dictated by duplicity and unfriend-liness. The press faithfully portrays this feeling. The delay of Great Britain in accepting the proposals for a settlement of the difficulty, which the United States ambassador, which the Christopher and the settlement of the difficulty, which the United States ambassador for a settlement of the Marquis of Salisbury from London, is generally interpreted in Germany as showing distinctly unfriendly motives upon the part of Great Britain. The correspondent of the Associated Press has had an interview on the subject with a high officer, who said:

"It has been a source of regret and astonishment that Great Britain, unlike the United States, has not expressed regret at the latest turn of affairs in Samoa, while the acceptance of our peaceful settlement has so far been coupled with unacceptable conditions containing the seed of new troubles, and manifestly unfair. We could not accept conditions canabling the American and British commissioners at any time to everride German rights, thus perpetuating the unpleasant state of affairs in the islands."

The press comment is in the same key, but naturally it is more outspoken. In a lengthy article the Kreux Zeitung charges Great Britain withmal a fides in the whole matter, allering that she is trying, for her own willsh purposes, to entangle the United States in hostility with all the continental powers, and at the same time drug her into a policy of expansion. The article concludes:

Warnell Of Painfful Surpriss.

WARNED OF PAINFUL SURPRISES.

WARNED OF PAINFUL SURPRISES.

"We say all this regretfully. An honest entente with Great Britain would be
an undeniable advantage, but, perhaps,
it is well thus early to be effectually
undeceived, as it may spare us later
more painful surprises."

The Boersen Counier says the reason
of Great Britain's delay in assenting to
Germany's proposal was founded on her
desire to continue with the aid of the
United States policy of "spitting Germany," and claims to find proof of this
artifude in the London press, which it
accuses of resuming its old tactics of
"Standering Germany and breeding
trouble bitween Germany and the United
States." e Tageblatt takes Great Britain to

for 'not expressing regret at the pected policy of repression in a." and regards her attitude toand regards her attitude to-ard Germany as insincere.

Another Berlin family was recently augmented by triplets and since then the parents have been the reciplents of parcels of baby linens and other useful articles and a sister of mercy arrived to nurse the mother. On Thursday the neighbors were astonished at the sight of an imperial carriage in front of the house. Two ladies and a gentleman emerged from the vehicle and climbed to the fifth floor. Entering the room occupied by the poor mother, one of the ladies said: "Good day, I have taken the liberty to come and have a look at the triplets."

It was the empress of Germany, who after a long conversation revealed herself as the unknown benefactor of the family. She left a present of money and promised another assistance.

DROWNED IN THE RAPIDS.

Commissioner H. D. McGuire and State

Senator W. A. Reed of Douglas collisty were drowned today in the Umpquariver.

This forenoon Senator Reed, McGuire and W. F. Hubbard of Stone, Ore., started down the North Emogan in a small boat, their objective point being the junction of the North and South Umpqua, six miles below Winchester. They left orders here for a wagon to meet them on the road about 4 p. m., anywhere above their objective point. Liveryman Barker went down four miles below Winchester, where he met Hubbard, who stated that they passed safely through one rapid, and before they were aware of it they were close to another, and in their efforts to avoid it an oarlock broke. The waves were high, and the boat was swamped. McGuire struck out for shore. Hubbard saw Reed on the overturned boat, but a moment later both Reed and McGuire had disappeared.

A large force of men left here this evening to look for the bodies.

TROUBLE WITH INDIANS.

They Threaten Miners In Copper River Country.

Seattle, Wash., April 8.-According to advices brought down from Copper river, Alaska, by the steamer Excelsion, river, Alaska, by the steamer Excelsior, the miners in the Yakutat country have been sorely tried with thieving Indians this winter. Their supplies were short enough at best, and when the Indians got away with parts of eaches and even stole the miners' tins and stoves, for-bearance ceased to be a virtue.

A party of miners on Dry creek, some distance in the interior, were cleaned out by the thieving Indians. They armed themselves, captured the thieves and recovered part of the stolen property. Five or six of the Indians were tied up and whipped.

Five or six of the Indians were tied up and whipped.

On being released, they called a coun-cil of the tribe and at last accounts were preparing for war against the miners. The latter were gathering to-gether to stand off the reds. A mes-sage was sent to Sitka asking that Governor Brady sent some of the fed-eral troops at Dyea to the Yakutat country.

WILLIE'S CAMERAS.

Willie had been out in the park all Saturday forenoon watching one of the older boys take pictures with his camera.

"Papa," he said that same evening after dinner, "I wish you would buy me a camera."

The doctor smiled indulgently at Willie, and knocked the ashes off his cigar into the grate.

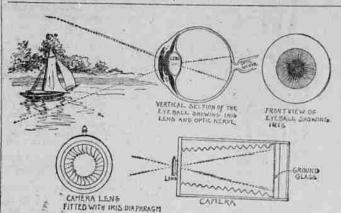

"Aren't you satisfied with the cameras which you already have?" he asked.

"The cameras I have?" repeated Willie in surprise. "Why, I haven't any, papa."

"Yes, Willie, you have two perfect cameras, and you take pictures with them every moment of the day."

Willie was speechless with surprise, and his papa continued:

"The cameras I speak of are your

eyes, and they are far more wonderful and perfect than Johnny Smith's big black one. Each of these little cameras has a lens in front, which we call the crystalline lens, and which acts just like the lens in the camera. The rays of light, passing through this lens, throws the picture bottom side up on the retima, or sensitive film of the sye."

"Johnny Smith told us," said Wille, "Hat his pictures always come out bottom side up But what becomes of the eye pictures after they are taken?"

"The pictures taken by the little eye camera," the doctor answered, "are all packed away in the brain cells, and they can afterwards be developed and printed by a wonderful process called memory. Do you remember the game of football which we saw in coming through the park yesterday?"

"Oh, yes! A lot of big boys, with funny things over their faces, were fightling to get hold of a large ball, and they sprawled all over each other till bey locked like one big animal with forty arms and legs."

"Theref" exclaimed the doctor, "you have just developed and printed a picture which was taken yesterday by your eye camera, and you have done it by the process of memory, with the assistance of will. This will faculty is a necessary agent in every action, and Johnny Smith could not develop and printed a picture which was taken yesterday by your eye camera, and you have done it by the process of memory, with the assistance of will. This will faculty is a necessary agent in every action, and Johnny Smith could not develop and printed of your six in good working order for that of a boy of your age."

SEVERAL BOYS AND GIRLS

Have Entered the Contest.

TO SECURE

Several boys and girls within the past few days have applied to the business office for further instruc tions regarding how to proceed in their canvassing for The Herald Bicycle Contest. They all evince a desire to become winners, and THE HERALD sincerely hopes that it may be able to give each and every one a wheel in return for the few hours' work for us. One little girl wanted to know if "one yearly subscriber would count for more than one?" Yes. It counts four points-equal to four 3-months' subscribers. Remember, the first boy or girl who has turned in the most names out of the first thirty wins the contest and takes the wheel. If you have time, go around to Browning Bros', and ask them to show you the elegant wheels THE HERALD is giving away. Ask for Mr. Emiseeverybody knows Charley Emise, by reason of his long connection with the Cleveland-and he will assure you of the squareness of our proposal and our anxiety to give these wheels away. Reports come from Ogden that little Miss Gertrude Ludwig is the envy of her many schoolmates-any one of whom could probably secure a wheel by a little systematic rustling. Send in the names, boys and girls, and let us send you a wheel.
